## 1. Session Planning Updates:

- a. [Access:](#)
  - i. Title: 100% Online: How to close the Internet access gap once and for all
  - ii. Comparative analysis between international and US approaches
  - iii. Finalizing panelists list (including Jane Coffin, Christopher Yu)
- b. [Privacy:](#)
  - i. Moderator: Stu Ingis
- c. [Content Moderation:](#)
  - i. Title: The Social Platform Dilemma: Moderation Governance Approaches How to Moderate Legal But “Objectionable” Content
  - ii. Keeping timeslot
- d. [IoT:](#)
  - i. Confirmed all of speakers: Dr. Amit Elazari, Paul Eisler, Adam Sedgewick
  - ii. Title: The Road to IoT Security: Industry and Government Working Together
  - iii. 60 minute panel (giving up last 15 minutes)
- e. [Cybersecurity:](#)
  - i. Have speaker proposal, working title and description, but nothing has been finalized yet
- f. [Regulation and Fragmentation:](#)
  - i. Title: Scenarios for 2026 - Will My Apps Work Everywhere?
  - ii. Don't have the final description yet
  - iii. Will probably need 15 extra minutes

- g. Antitrust:
    - i. Title: Rexamining Antitrust in an Increasingly Digital Economy
    - ii. Starting with 20 minute discussion on consumer welfare standard
      - 1. Elyse Dorsey confirmed as a panelist for this
    - iii. Second half is a discussion with panelists from different sectors of economy (fintech, e-commerce, digital advertising)
    - iv. 60 minute panel (giving up last 15 minutes)
  - h. Digital Identity:
    - i. Moderator: Jeremy Grant
    - ii. Panelists: Patrick Kinsel, Elizabeth Braneiaris, Anne Wallworth (pending approval)
    - iii. Title: Why don't we have better digital identity? What could we do if we did?
    - iv. Keeping timeslot
  - i. Digital Markets:
    - i. Reaching out to lightning talk candidates → Taskrabbit, Patreon, Quora, Outschool, Wikipedia
    - ii. Followed by a panel → Center on Rural Innovation, April Rinne, still figuring out the one or two others
2. Keynote Speaker:
- a. Steve Case is not available, NTIA suggested Doreen Bogdan-Martin as a potential speaker → going to reach out to her
3. Conference Schedule:
- a. Security session wants 90 minutes if their opening keynote works out
  - b. Might be nice to switch IoT and Privacy because IoT session is shorter, so would be good for later in the day
4. Fun Committee
- a. Closing reception with mixology
  - b. Crowd-sourced trivia element about Internet
  - c. Checking out Kumospace and other recommendations for networking
  - d. Pre IGF-USA Steering Committee Reception
5. Outreach and Promotion
- a. Could promote session recordings and reports in the 2-3 days after IGF-USA to generate more publicity surrounding the conference
    - i. Session organizers could collect twitter handles and information about panelists ahead of time

- b. Going to establish a PR committee (work on organizing advertising, especially for the specific sessions)
